

Join us at the GNSS.asia Australia Workshop

Date: Tuesday 14 July, 2015 – [13:30-15:25] [15:55-17:15]

Room: Boulevard 2

Dear Sir/Madam,

GNSS.asia would like to kindly invite you to participate to the **GNSS.asia Australia Workshop**. Aimed at stimulating cooperation between European and Australian GNSS industry, the dedicated Workshop will encompass presentations by key industry players and institutional actors from both the EU and Australia, offering unique insights into international opportunities for satellite navigation companies.

Why should you join this workshop?

- Innovative European SBAS applications
- EU-Australia (multi-)GNSS cooperation opportunities
- Keynote speech by EU representative
- Galileo & EGNOS program updates
- European GNSS (EGNSS) differentiators in multi-GNSS solutions
- Network opportunities with key European GNSS companies
- Applications for Australian challenges (mining, ITS, agriculture, maritime)
- GNSS innovation competition in Europe
- GNSS.asia Challenge
- International cooperation possibilities via the GNSS.asia platform
- GNSS.asia success stories
- Details about upcoming GNSS.asia events
- ...and much more!

GNSS.asia – International cooperation across continents

GNSS.asia, financed under the Horizon 2020 Framework Programme for Research and Innovation, provides a comprehensive range of hands-on support services to GNSS industry in Europe and the Asia-Pacific region, assisting them to develop mutually beneficial commercial activities and establish concrete industrial collaboration. The GNSS.asia consortium brings together European and Asian organisations, which have long-standing experiences in fostering EU-Asia industrial cooperation and have a proven track record in supporting GNSS activities. GNSS.asia and its partners are present at several key GNSS events across Europe and the Asia-Pacific region, representing the platform and supporting the GNSS industry. In addition, GNSS.asia organises its own GNSS seminars, workshops, round table conferences and thematic events.

Selection of European companies involved in GNSS.asia
